## Introducing Zio XT®

### CERTAINTY IN A SINGLE TEST

Comprehensive data and flexible monitoring time help you find answers in a single test and provide superior clinical service to your patient.

Zio XT provides you the assurance of uninterrupted ECG recording from start to finish. Simply choose the best time frame for your patient and use our comprehensive report to make a confident diagnosis.

### Flexible Time Frame

Tailor monitoring time from three to 14 days based on your individual patient's symptoms. Collect all the data you need in a single monitoring period.

### Patient-friendly Design

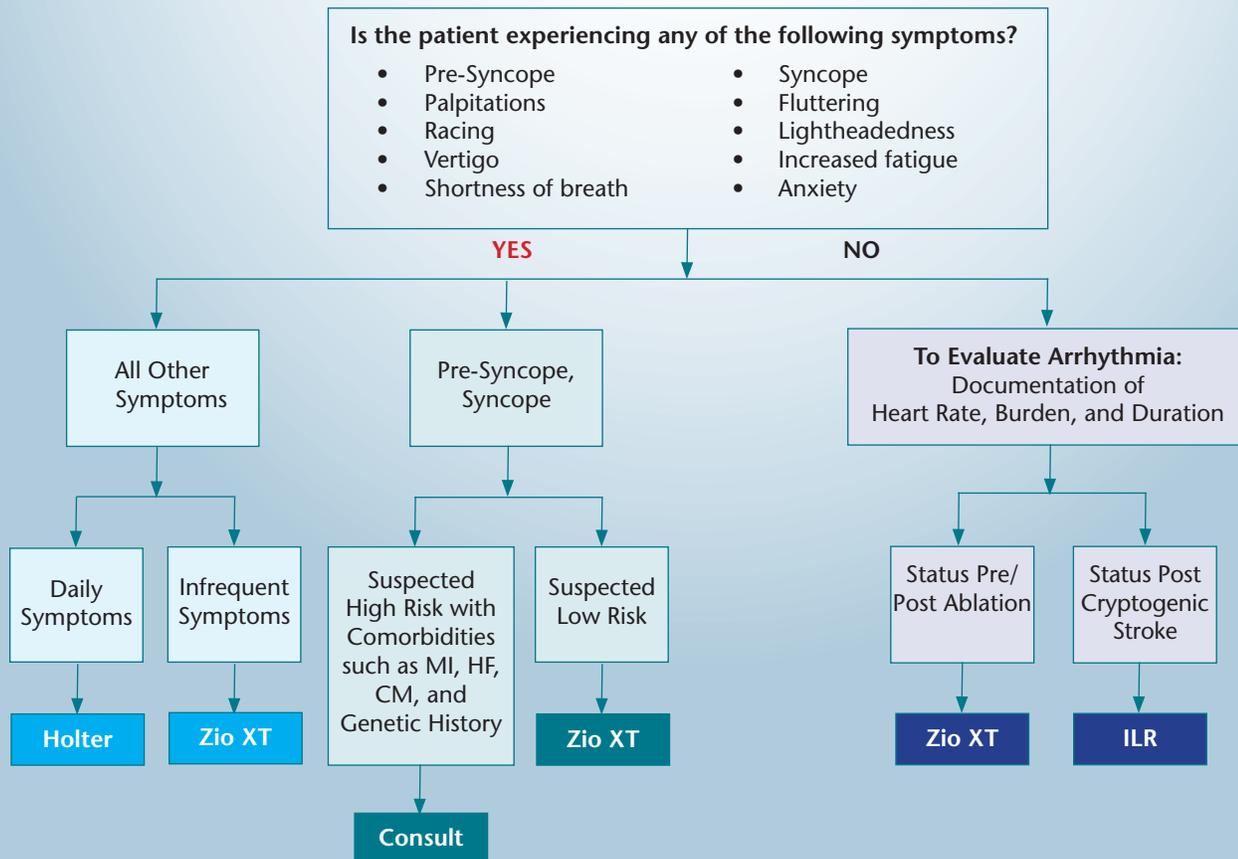

The Zio patch facilitates high patient compliance. No maintenance or special attention is required. Your patient can even shower, sleep, and exercise while wearing the Zio monitor.

### Assured Clinical Accuracy

Ninety-nine percent median analyzable time<sup>1</sup> helps ensure you don't miss critical insights. Interpret up to 14 days of uninterrupted data for greater arrhythmia detection.

## Pathway for Ambulatory Monitoring

### Our Team Members

**AN "BARRY" H. BUI, MD, FACC**

**Medical School:** University of Virginia School of Medicine  
**Residency:** Internal medicine, Brigham and Women's Hospital  
**Fellowships:** Cardiovascular disease, Beth Israel Deaconess Medical Center; cardiac electrophysiology, Harvard Thorndike Electrophysiology Institute at Beth Israel Deaconess Medical Center

**Board Certified:** Internal medicine, cardiovascular disease, cardiac electrophysiology

**Specialties:** Cardiology, electrophysiology, interventional cardiology

**RICHARD KUK, MD**

**Medical School:** University of Pittsburgh School of Medicine  
**Residency:** Internal medicine, Medical College of Virginia  
**Fellowships:** Cardiology, cardiac electrophysiology, University of Maryland Medical Center

**Board Certified:** Internal medicine, cardiovascular disease

**Specialties:** Cardiology, electrophysiology, internal medicine

**SAMUEL OMOTOYE, MD, FRCPC, FACC**

**Medical School:** University of Lagos  
**Residency:** University of Western Ontario  
**Fellowships:** Cardiology, University of Toronto; clinical cardiac electrophysiology, Cleveland Clinic

**Board Certified:** Internal medicine, cardiovascular diseases, cardiac electrophysiology

**Specialties:** Cardiology, electrophysiology, interventional cardiology

**MATTHEW SACKETT, MD, FACC, FHRS**

**Medical School:** University of Virginia School of Medicine  
**Residency:** Internal medicine, Emory University School of Medicine  
**Fellowships:** Cardiovascular disease, cardiac electrophysiology, Wake Forest University

**Board Certified:** Internal medicine, cardiovascular disease, cardiac electrophysiology

**Specialties:** Cardiology, electrophysiology, interventional cardiology

**C. MICHAEL VALENTINE, MD, FACC**

**Medical School:** University of Virginia School of Medicine  
**Residency:** Emory University

**Fellowship:** Cardiology fellowship, Emory University

**Board Certified:** Cardiovascular disease, interventional cardiology

**Specialties:** Pacing, electrophysiology, interventional cardiology

**CENTRA MEDICAL GROUP STROOBANTS CARDIOVASCULAR CENTER**, nationally recognized as being one of the best heart centers in the nation, offers board-certified cardiovascular specialists in:

- Lynchburg
- Danville
- Farmville
- Bedford
- Moneta
- Gretna

**THE RHYTHM CENTER** at

Centra Medical Group Stroobants Cardiovascular Center provides full heart rhythm services, including evaluation, diagnosis and management of heart rhythm disturbances. The center's EP team is comprised of board-certified electrophysiologists and cardiologists that are completely dedicated to the care of patients with arrhythmias or implanted devices.

Through inpatient and procedural services at the Centra Medical Group Stroobants Cardiovascular Center at Centra Lynchburg General Hospital and outpatient testing and consultations at our state-of-the-art office, we provide the full breadth of evaluation and treatment of both simple and complex arrhythmias. Our services help patients live healthy, productive lives.
